### DETAILED ACTION

1. The amendment filed 6/23/05 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the phrase "having a thickness...polyurethane paints" (found in 0009). There is no previous mention of the added description/limitations in the instant disclosure.

Applicant is required to cancel the new matter in the reply to this Office Action.

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-9 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claims introduce new matter into the disclosure. The added material which is not supported by the original disclosure is as follows:

a. the phrase "comprising...paint" (cl 1, lns 3-4) lack support in the instant disclosure. There is no mention in the instant disclosure of using a water-based or a solvent-based paint as the instant coating.

Art Unit: 1732

b. claim 7 lacks support in the instant disclosure because there is no mention in the instant disclosure of using a polyurethane paint.

c. claim 8 lacks support in the instant disclosure because there is no mention in the instant disclosure of making a coating having the claimed thickness.

Correction is required.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 0995568. EP 0995568 teaches the claimed process as evidenced at paragraphs 0012, 0013, 0014, 0020, 0022-0025, 0029-0044, 0054-0058, and figs 1-7.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following patents teach the state of the art: JP 56-78958, 4350739, 5938993, 5116557, JP 3-112575, 43949601, 3694530, 4356230, 4438062, 4405551, and 3504063.
